Independent Auditor's Report

To the Mayor and City Aldermen City of Lexington Lexington, Tennessee 38351

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Lexington, Tennessee, (the City), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents. We did not audit the the financial statements of the Lexington Electric System, which is both a major fund and 60%, 60%, and 79% respectively, of the assets, net position, and revenues of the business-type activities.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility it to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Lexington Electric System, which represent 60%, 60%, and 79% respectively, of the assets, net position, and revenues of the business-type activities. Those statements were audited by other auditors whose report has been furnished to us, and in our opinion, in so far as it relates to the amounts included for Lexington Electric System, is based solely on the report of other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of June 30, 2015, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparisons for the General Fund and the General Purpose School Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Emphasis of Matter

As described in Note 4.G., the City has adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 68, Accounting and Financial Reporting for Pensions - an amendment of GASB Statement 27. The City also adopted the provisions of Governmental Standards Accounting Board (GASB) Statement 71, Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement 68. Our opinion is not modified with respect to this matter.

As described in Note 4.J., the City's previously issued financial statements have been restated for the correction of a material misstatement in the respective period.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the schedule of funding progress on pages 4 through 9 and pages 70 through 72 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, and other supplemental information are presented for purposes of additional analysis and are not a required part of the financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations,* and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules, and other supplemental information are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information, except for that which has been marked "uaudited", has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, the combining and individual nonmajor fund financial statements and schedules, and other supplemental information, except for that which has been marked "unaudited", are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section, the AWWA Free Water Audit Software: Reporting Worksheet, and the AWWA Free Water Audit Software: System Attributes and Performance Indicators – "unaudited" have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated May 23, 2016, except for Note 4.J. as to which the date is August 9, 2016, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Godwin & associates, PLLC

May 23, 2016, except for Note 4.J. as to which the date is August 9, 2016

#### CITY OF LEXINGTON, TENNESSEE MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2015

Our discussion and analysis of the City of Lexington, Tennessee, will offer readers of the City's financial statements a narrative overview and review of the financial activities of the City for the fiscal year ended June 30, 2015. Readers are encouraged to consider the information presented here in conjunction with the City's financial statements.

#### **USING THIS ANNUAL REPORT**

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities (on pages 10 and 11) provide information about the activities of the City as a whole and present a longer-term view of the City's finances. Fund financial statements start on page 12. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the City's operations in more detail than the government-wide statements by providing information about the City's most significant funds. The remaining statements provide financial information about activities for which the City acts as a trustee or agent for the benefit of those outside of the government.

#### Reporting the City as a Whole

#### The Statement of Net Position and the Statement of Activities

Our analysis of the City as a whole begins on page 10. The following is one of the most important questions asked about the City's finances, "Is the City as a whole better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the City as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

The *statement of net position* presents financial information on all of the City's assets, liabilities, deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases and decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The *statement of activities* presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported for some items that will only result in cash flows of future fiscal periods.

In the Statement of Net Position and the Statement of Activities, we divide the City into two kinds of activities:

- Governmental activities Most of the City's basic services are reported here, including the general administration, police, fire, public works, health, welfare, and recreation, economic development and debt service. Property taxes, local sales taxes, and state shared revenue finance most of these activities.
- Business-type activities The City charges a fee to customers to help cover all or most of the cost of certain services it provides. The City's gas, water and sewer, and electric operations are reported here.

Our analysis of the City's major funds begins on page 12. The fund financial statements begin on page 12 and provide detailed information about the most significant funds (not the City as a whole). Some funds are required to be established by State law. However, the City Board establishes other funds to help it control and manage money for particular purposes. The City's two kinds of funds – governmental and proprietary – use different accounting approaches.

- Governmental Funds Most of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at yearend that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in a reconciliation at the bottom of the fund financial statements.
- Proprietary Funds When the City charges customers for the services it provides, these
  services are generally reported in proprietary funds. Proprietary funds are reported in the
  same way that all activities are reported in the Statement of Net Position and the Statement
  of Activities. In fact, the City's enterprise funds (a component of proprietary funds) are the
  same as the business-type activities we report in the government-wide statements but
  provide more detail and additional information, such as cash flows.

**The City as Trustee** – The City maintains two types of fiduciary funds for which it is the trustee or fiduciary. The agency fund is used to account for student activity of the local city school. The pension trust fund accounts for pension contributions, benefits, and distributions. Both of these funds are reported in a separate Statement of Fiduciary Net Position page 32, and the Statement of Changes in the Fiduciary Net Position for the Pension Trust fund is on page 33. We exclude these activities from the City's other financial statements because the City cannot use these assets to finance its operations. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

**Notes to the Financial Statements** – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 34 - 69.

**Other Information** – In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's progress in funding its obligations to provide pension benefits to its employees. Required supplementary information can be found on pages 70 - 72 of this report.

The combining statements referred to earlier in connection with non-major governmental funds are presented following the required supplementary information on pensions. Combining and individual statements and schedules can be found on pages 73 - 85 of this report.

#### THE CITY AS A WHOLE

Net position may serve over time as a useful indicator of government's financial position. In the case of the City of Lexington, assets exceeded liabilities and deferred inflows of resources by \$74,599,284 at June 30, 2015.

	Government	tal Activities	Business Ty	/pe Activities	Total			
	2015	2014	2015	2014	2015	2014

Total Net Position	\$ 19,037,477	\$ 19,943,995	\$ 54,596,527	\$ 55,083,776	\$ 73,634,004	\$ 75,027,771		

#### **CITY OF LEXINGTON'S NET POSITION**

There were restatements of net position that affected both the Governmental and Business-Type Activities. For additional information see Note 4.H.

#### **Governmental Activities**

To aid in the understanding of the Statement of Activities some additional explanation is given. Of particular interest is the format that is significantly different than a typical Statement of Revenues, Expenses, and Changes in Fund Balance. You will notice that expenses are listed in the first column with revenues from that particular program reported to the right. The result is a Net (Expense)/Revenue. The reason for this kind of format is to highlight the relative financial burden of each of the functions on the City's taxpayers. It also identifies how much each function draws from the general revenues or if it is self-financing through fees and grants.

#### **Business-type Activities**

The changes in business-type activities net position are described below:

- The City's Gas System had an increase in net position of \$523,192 which is compared to an increase in the prior year of \$295,316.
- The City's Water Systems Fund had an increase of net position of \$1,167,129 compared to an increase in the prior year of \$529,500.

- The City's Electric Department had an increase in net position of \$1,293,111 compared to an increase in the prior year of \$1,664,265.

The following table provides a summary of the City's operations for the year ended June 30, 2015, with comparative totals for the year ended June 30, 2014.

	Government	al Activities	Business Ty	pe Activities	TO	TAL

#### CITY OF LEXINGTON'S CHANGES IN NET POSITION

#### THE CITY'S FUNDS

As the City completed the year, its governmental funds (as presented in the balance sheet on page 12) reported a combined fund balance of \$5,642,902 which is 13.7% above last year's total of \$4,961,055.

The following schedule presents a summary of general, special revenues, debt service and capital project revenues and expenditures for the fiscal year ended June 30, 2015, and the amount and percentage of increases and decreases in relation to the prior year.

				Increa	se (Decrease)
			Percent		from
Revenues	Ju	ne 30, 2015	of Total	Jur	ne 30, 2014
Taxes	\$	6,182,775	36.48%	\$	270,634
Intergovernmental		9,045,007	53.37%		(131,429)
Licenses and permits		9,607	0.06%		3,503
Charges for services		986,921	5.82%		(6,789)
Fines and forfeitures		260,329	1.54%		4,419
Other revenues		464,428	2.74%		(236,678)
Total Revenues	\$	16,949,067	100.00%	\$	(96,340)

Other revenues was inflated in the prior year due to a large amount of insurance recoveries for storm damage.

		Percent	Increase (Decrease) from
Expenditures	June 30, 2015	of Total	June 30, 2014
General government	\$ 1,028,474	5.83%	\$ (6,673)
Public Safety	2,753,265	15.60%	(65,140)
Public Works	1,685,266	9.55%	43,808
Health, welfare, and recreation	9,638,195	54.61%	(366,088)
Economic development	85,921	0.49%	14,191
Capital outlay	1,114,810	6.32%	583,996
Debt Service	1,344,604	7.62%	(67,589)
Total Expenditures	\$ 17,650,535	100.00%	\$ 136,505

Capital outlay is increased due to the purchase of a fire truck and a garbage truck.

#### **General Fund Budgetary Highlights**

Over the course of the year the School System revised the budget at various times during the year.

#### CAPITAL ASSET AND DEBT ADMINISTRATION

#### **Capital Assets**

At the end of June 2015, the City had \$98,715,628 invested in a broad range of capital assets, including police and fire equipment, buildings, parks facilities, water and sewer lines, natural gas lines, electric plant and equipment, and various other equipment. This amount represents a net decrease (including additions and deductions) of \$503,037, or 0.5% below the prior year. Additional information on capital assets is in Note 3.C.

#### Debt

At year-end, the City had \$38,945,388 in outstanding long-term debt compared to \$41,776,761 last year. Of the total outstanding debt 28% belongs to the Governmental funds, 7% to the Gas Fund, 27% to the Water Systems Fund, and 38% to the Electric Department.

See Note 3.G for additional information.

#### CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have any questions about this report or need additional information, contact the City at 33 1<sup>st</sup> Street, Lexington, Tennessee.

#### CITY OF LEXINGTON, TENNESSEE RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO STATEMENT OF NET POSITION JUNE 30, 2015

Total fund balance - total governmental funds	\$ 5,642,902
Amounts reported for governmental activities in the statement of net position are different because:	
Capital assets used in governmental activities are not current financial resources and therefore are not reported in the governmental funds balance sheet.	27,799,361
Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the funds.	94,928
Net pension asset is not recorded on governmental fund balance sheet but is recorded for government-wide purposes	17,035
Net pension liability is not recorded on governmental fund balance sheet but is recorded for government-wide purposes	(1,043,991)
Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be amortized and recognized as components of pension expense in future years.	(1,283,384)
Accrued interest is not reported in the governmental funds balance sheet but is recorded for government-wide purposes.	(47,633)
Long-term liabilities are not due and payable in the current period and, therefore, they are not reported in the governmental funds balance sheet.	 <u>(12,142,741)</u>
Net position of governmental activities	\$ 19,036,477

#### CITY OF LEXINGTON, TENNESSEE RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES YEAR ENDED JUNE 30, 2015

Net change in fund balances - total governmental funds	\$ 684,289
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlay as expenditures. However, in the government-wide statement of activities and changes in net position, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount of capital assets recorded for the current	
period.	1,114,810
Depreciation expense on capital assets is reported in the government-wide statement of activities and changes in net position, but they do not require the use of current financial resources. Therefore, depreciation expense is not reported as expenditure	
in government funds.	(1,315,764)
Net effect of asset disposal	(97,860)
Governmental funds do not record net pension liabilites, deferred inflows/outlfows of resources related to pensions. However, the government-wide statement of activities and changes in net assets reports the effects of these items.	542,448
The repayment of principal of long-term debt consumes the current financial resources of governmental funds. However, it has no effect on net position.	1,046,469
Some expenses reported in the statement of activities do not require the use of current financial resources; therefore, they are not reported as expenditures in governmental funds.	(12,295)
Some property tax will not be collected for several months after the City's fiscal year end, they are not considered "available" revenues in the governmental funds.	 (12,385)
Change in net position of governmental activities	\$ 1,949,712

The accompanying notes are an integral part of these financial statements.

## NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City complies with generally accepted accounting principles (GAAP). GAAP includes all relevant Governmental Accounting Standards Board (GASB) pronouncements. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of this Note.

## **1. A. FINANCIAL REPORTING ENTITY**

The City's financial reporting entity comprises the following:

Primary Government: City of Lexington

Blended Component Units: None

In determining the financial reporting entity, the City complies with the provisions of GASB Statement No. 14, "The Financial Reporting Entity," and includes all component units of which the City appointed a voting majority of the units' board; the City is either able to impose its will on the unit or a financial benefit or burden relationship exists.

## Blended Component Units

Blended component units are separate legal entities that meet the component unit criteria described above and whose governing body is the same or substantially the same as the City Board or the component unit provides services entirely to the City. These component units' funds are blended into those of the City's by appropriate activity type to compose the primary government presentation. Currently, the City has no blended component units.

## Discretely Presented Component Units

Discretely presented component units are separate legal entities that meet the component unit criteria described above but do not meet the criteria for blending. Currently, the City has no discretely presented component units.

## 1. B. BASIS OF PRESENTATION

## Government-wide Financial Statements:

The Statement of Net Position and Statement of Activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments for in lieu of taxes where the amounts are reasonably equivalent in value to the interfund services provided and other charges between the

government's utility functions and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

## Fund Financial Statements:

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditure/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the City or meets the following criteria:

- Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and
- b. Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The funds of the financial reporting entity are described below:

#### **Governmental Funds**

#### General Fund

The General Fund is the primary operating fund of the City and is always classified as a major fund. It is used to account for all activities except those legally or administratively required to be accounted for in other funds.

#### Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for certain purposes.

## Capital Project Fund

The Capital Project Fund is used to account for resources restricted for the acquisition or construction of specific capital projects or items. The reporting entity includes only one Capital Project Fund and it is used to account for the acquisition of capital assets with transfers made from the General Fund.

#### Debt Service

The Debt Service Fund accounts for the accumulation of financial resources for the payment of interest and principal on the general long-term debt of the city other than debt service payments made by enterprise funds. This fund is used to pay the debt of the post office building. The building is rented to the U.S. Postal Service. Rental payments are used for the payment of principal and interest.

## **Proprietary Fund**

## Enterprise Fund

Enterprise funds are used to account for business-like activities provided to the general public. These activities are financed primarily by user charges and the measurement of financial activity focuses on net income measurement similar to the private sector.

## Fiduciary Funds (Not included in government-wide statements)

## Agency Funds

Agency funds account for assets held by the City in a purely custodial capacity. The reporting entity includes one agency fund. Since agency funds are custodial in nature (i.e., assets equal liabilities) they do not involve the measurement of results of operations. The agency fund is as follows:

## Fund Brief Description

School Agency Fund	Accounts for	or stud	lent a	ctivity fu	nds that	record	transa	actions rel	ated to
	resources population, population.	or in						•	

## Pension Trust Funds

Pension trust funds account for pension contributions, benefits, and distributions. The City has the following two funds: one for the Electric Department and another for the governmental departments and the remaining utility departments.

## Major and Nonmajor Funds

The funds are further classified as major or nonmajor as follows:

Fund <i>Major:</i>	Brief Description								
General	See above for description.								
<i>Special Revenue Fund:</i> General Purpose School	Accounts for revenues and expenditures of the City's school.								
<i>Proprietary Fund:</i> Natural Gas Fund	Accounts for activities of the government's natural gas distribution operations.								
Water Systems Fund	Accounts for operations of the sewage facilities and the distribution of water.								
Electric Department	Accounts for activities of the government's electric distribution operations.								

<b>Nonmajor</b> Special Revenue Funds: State Street Aid	Accounts for the state gas tax revenue and the expenditures legally restricted to street maintenance.
School Tax Fund	Accounts for revenues, which are primarily a portion of the State- shared sales tax revenues and transfers from the General Fund, and expenditures, which are primarily capital in nature.
School Food Service	Accounts for the school cafeteria revenues and the expenditures.
Solid Waste Collection	Accounts for the solid waste collection revenue and expenditures related to disposal services.
Dare Fund	Accounts for project revenues and expenditures related to drug awareness programs.
E-citation Fund	Accounts for revenues generated from e-citations.
Police Drug Fund	Accounts for revenues and expenditures on drug fines and enforcement costs.
Debt Service Fund	See above for description.
Capital Projects Fund	See above for description.

## **1.C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING**

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates timing transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital lease are reported as other financing sources.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the

current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met; including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of yearend). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of yearend). All other revenue items are considered to be measurable and available only when the cash is received by the government.

The proprietary funds are reported using the *economic resources measurement focus* and the *accrual basis of accounting*.

The City does not allocate indirect costs.

## 1.D. BUDGETARY INFORMATION

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for all governmental funds.

The City adopts its budget in accordance with the State's legal requirement which is the level of classification detail at which expenditures may not legally exceed appropriations.

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- a. Formal budgetary integration is employed as a management control device during the year for the General and Special Revenue Funds. These budgets are adopted on a basis consistent with generally accepted accounting principles.
- b. Unused appropriations for each of the annually budgeted funds lapse at the end of the year.
- c. Revisions to the budget may be made throughout the year in accordance with governing statutes and consistent with generally accepted accounting principles.

# 1.E. ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS OF RESOURCES, AND NET POSTION/FUND BALANCE

## Cash and Investments

For the purpose of the Statement of Net Position, "cash and cash equivalents" includes all demand, savings accounts, and certificates of deposits of the City. For the purpose of the proprietary fund Statement of Cash Flows, "cash and cash equivalents" include all demand and savings accounts, and certificates of deposit or short-term investments with an original maturity of three months or less.

Investments are carried at fair value. Fair value is based on quoted market price. Additional cash and investment disclosures are presented in Notes 2.B. and 3.A.

## Interfund Receivables and Payables

During the course of operations, numerous transactions occur between individual funds that may result in amounts owed between funds. Those related to goods and services type transactions are classified as "due to and from other funds." Short-term interfund loans are reported as "interfund receivables and payables." Long-term interfund loans (noncurrent portion) are reported as "advances from and to other funds." Interfund receivables and payables between funds within governmental activities are eliminated in the Statement of Net Position. See Note 3.H. for details of interfund transactions, including receivables and payables at year-end.

## Receivables

In the government-wide statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivable balances for the governmental activities include property taxes, sales taxes, and grants. Business-type activities report utilities as their major receivables.

## Inventories and Prepaid Expense

Inventories consist primarily of supplies, valued at cost, which approximates market. Cost is determined using current costs. All City inventories are maintained on a consumption basis of accounting where items are purchased for inventory and charged to the budgetary accounts as the items are consumed. Prepaid expenses are also maintained on the consumptive basis of accounting.

## **Restricted Assets**

Certain proceeds of bond issues, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because they are maintained in separate bank accounts and their use is limited by applicable bond covenants.

## Bond Discounts / Issuance Costs

In the governmental funds bond discounts are treated as period costs in the year of issue. In the proprietary funds, bond discounts are deferred and amortized over the term of the bonds using the straight-line method if it does not differ materially from the interest method.

Bond issuance costs are treated as expenses in the year incurred in both governmental and proprietary funds except for Lexington Electric System. Lexington Electric System capitalizes bond issue costs and amortizes these costs over the life of the bond issue.

## **Capital Assets**

The accounting treatment over property, plant, and equipment (capital assets) depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

## Government-wide Statements

In the government-wide financial statements, capital assets are accounted for as capital assets. All capital assets are valued at historical cost or estimated historical cost if actual is unavailable, except for donated capital assets which are recorded at their estimated fair value at the date of donation. Estimated historical cost was used to value some of the assets acquired prior to June 30, 2003.

Prior to July 1, 2002, governmental funds' infrastructure assets were not capitalized. Infrastructure assets include roads, bridges, underground pipe (other than related to utilities), traffic signals, etc.

The capitalization policy is as listed below:

1.	Real property – Land a. Land – non depreciable b. Land Improvements	\$1 \$5,000
2.	Real property – Buildings	\$10,000
3.	Motor Vehicles a. Cars/Light Trucks/Jeeps b. Trucks/Heavy c. Buses d. Vans	\$ 1,000 \$ 1,000 \$ 1,000 \$ 1,000
4.	Equipment	\$ 1,000
5.	Personal Property	\$ 1,000

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

	<u>Years</u>
Buildings	20-50
Equipment	5-20
Vehicles	6-15
Plant	20-50

## Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for the same as in the government-wide statements.

## **Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The government's deferred outflows of resources are related to pension requirements under GASB Statement No. 68.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The government has two items that qualify for reporting in this category. One item, *unavailable revenue*, is reported only in the government-wide Statement of Net Position and the governmental funds balance sheet. The governmental funds report unavailable revenues from one

source: property taxes. The second deferred inflows of resources are related to the government's pension requirements under GASB Statement No. 68.

## Long-term Debt

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term debt to be repaid from governmental and business-type resources is reported as liabilities in the government-wide statements. The long-term debt consists primarily of notes payable, capital lease payables, accrued compensated absences, and post-closure landfill costs.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principle and interest reported as expenditures. The accounting for proprietary funds is the same in the fund statements as it is in the government-wide statements.

## **Compensated Absences**

The City's policies regarding vacation and personal leave time permit employees to accumulate earned but unused vacation and personal leave. The liability for these compensated absences is recorded as long-term debt in the government-wide statements. The current portion of this debt is estimated based on historical trends. In the fund financial statements, governmental funds report only the compensated absence liability payable from expendable available financial resources, while the proprietary funds report the liability as it is incurred.

## Electric System

It is the System's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. All vacation pay has been accrued and is reflected as a current liability on the financial statements. All sick leave has been accrued and is reflected as both a current and non-current liability on the financial statements.

## School System

The System's policy is to pay \$10 for every unused day of sick leave accumulated at retirement. The System's financial statements do not include a liability for compensated absences as the amount is not material.

## Net Position Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which resources are considered applied. It is the government's policy to considered restricted – net position to have been depleted before unrestricted – net position is applied.

Net position is displayed in three components:

a. Net investment in capital assets – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes,

or other borrowings that are attributable to the acquisition, construction, or improvements of those assets.

- Restricted net position Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position All other net position that do not meet the definition of "restricted" or "net investment in capital assets."

## Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The government itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision making authority. The Board of Aldermen is the government's highest level of decision-making authority for the government that can, be adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The governing board has by resolution authorized the finance director to assign fund balance. The council may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

*Nonspendable* fund balance is associated with inventories, prepaids, long-term loans and notes receivable, and property held for resale (unless the proceeds are restricted, committed or assigned).

*Restricted* fund balance category includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.

The City has not yet adopted an order of fund balance spending policy. It considers that committed amounts would be reduced first, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

## Pensions – School System

For purposes of measuring the net pension liability, deferred outflows or resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teacher Legacy Pension Plan in the Tennessee Consolidated Retirement System (TCRS) and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the TCRS. For this purpose, benefits (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms of the Teacher Legacy Pension Plan. Investments are reported at fair value.

For purposes of measuring the net pension liability, deferred outflows or resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teacher Retirement Plan in the Tennessee Consolidated Retirement System (TCRS) and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the TCRS. For this purpose, benefits (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms of the Teacher Retirement Plan. Investments are reported at fair value.

## 1.F. REVENUES, EXPENDITURES, AND EXPENSES

## Program Revenues

Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

## Sales Tax

The City presently levies a nine and three-quarters percent sales tax on taxable sales within the City. The sales tax is collected by the Tennessee Department of Revenue and remitted to the City in the month following receipt by the Department of Revenue. The Department of Revenue receives the sales tax approximately one month after collection by vendors. The sales tax is recorded in the General Fund and the School Tax Fund. Sales tax remitted to the City in July has been accrued and are included under the caption "Due from other governments."

## **Property Tax**

Property taxes are levied annually on the first of January. The taxes are due and payable from the following October through February in the year succeeding the tax levy. An unperfected lien attaches by statute to property on March 1 for unpaid taxes from the prior year's levy. Taxes uncollected for one year past the due date are submitted to the Chancery Court for collection. Tax liens become perfected at the time the court enters judgment. In the fund financial statements, property taxes are recorded as revenue in the period levied to the extent they are collected within 60 days of year-end.

## **Operating Revenues and Expenses**

Operating revenues and expenses for proprietary funds are those that result from providing services and producing and delivering goods and/or services. It also includes all revenue and expenses not related to capital and related financing, noncapital financing, or investing activities. All revenues that are not generated from the daily operations are defined as non-operating.

## **Expenditures/ Expenses**

In the government-wide financial statements, expenses are classified by function for both governmental and business-type activities.

In the fund financial statements, expenditures are classified as follows:

Governmental funds – by Character:

Current (further classified by function) Debt Service Capital Outlay

## Proprietary Fund – By Operating and Nonoperating

In the fund financial statements, governmental funds report expenditures of financial resources. Proprietary funds report expenses relating to use of economic resources.

## Interfund Transfers

Permanent, reallocation of resources between funds of the reporting entity are classified as interfund transfers. For the purposes of the Statement of Activities, all interfund transfers between individual governmental funds have been eliminated.

## NOTE 2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABLITY

By its nature as a local government unit, the City and its component units are subject to various federal, state, and local laws and contractual regulations. An analysis of the City's compliance with significant laws and regulations and demonstration of its stewardship over City resources follows.

## 2.A. FUND ACCOUNTING REQUIREMENTS

Fund	Required By
E-citation Fund	State Law
Police Drug Fund	State Law

## 2.B. DEPOSITS AND INVESTMENTS LAWS AND REGULATIONS

In accordance with state law, all uninsured deposits of municipal funds in financial institutions must be secured with acceptable collateral valued at the lower of market or par. Acceptable collateral includes certain U.S. Government or Government Agency securities, certain State of Tennessee or political subdivision debt obligations, or surety bonds. As required by 12 U.S.C.A., Section 1823(e), all financial institutions pledging collateral to the City must have a written collateral agreement approved by the board of directors or loan committee.

The City's investment policies are governed by State statute. Permissible investments include direct obligations of the U.S. Government and agency securities, certificates of deposit, and savings accounts. Collateral is required for demand deposits, certificates of deposits, and repurchase agreements at 105% of all amounts not covered by federal deposit insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of the State and its subdivisions. The City has no policy that further limits allowable investments.

## 2.C. REVENUE RESTRICTIONS

The City has various restrictions placed over certain revenue sources from state or local requirements. The primary restricted revenue sources include:

Revenue Source Sales Tax Gasoline Excise Tax Grants E-citation fees Legal Restrictions of Use Portion to fund city school program Street purposes Grant program expenditures E-citation equipment

## 2.D. FUND EQUITY RESTRICTIONS

## **Deficit Prohibition**

Tennessee Statutes prohibits the creation of a deficit fund balance in any individual fund. The City had no deficit fund balances at June 30, 2015.

## 2.E. BUDGET

## Lexington City Schools

The System is required by state law to prepare an annual budget. The budget is subject to approval by the Lexington City Council and the System cannot exceed the total budgeted expenditures.

The System uses a budgetary basis of accounting. It is consistent with GAAP, except that instances in which encumbrances are treated as budgeted expenditures. The difference between the budgetary basis and the GAAP basis is presented on the face of each budgetary schedule.

## NOTE 3. DETAIL NOTES ON TRANSACTION CLASSES/ACCOUNTS

#### **3.A. CASH AND INVESTMENTS**

#### Deposits

The City's policies regarding deposits of cash are discussed in Note 1.D. The City maintains checking accounts with local banks. Also, some funds are held as certificates of deposit at local banks. Deposits are carried at cost plus accrued interest. The carrying amount of deposits is separately displayed on the balance sheet as "Cash and cash equivalents" and "investments". Investments consist of certificates of deposits at local banks whose original maturity exceeds three months.

The City's policies regarding deposits of cash are discussed in Note 2B.

#### **General Government**

As of June 30, 2015, the City's bank balances were not exposed to custodial credit risk due to being entirely covered by depository insurance (a combination of federal depository insurance with the excess covered by the State's Bank Collateral Pool).

## Gas System

As of June 30, 2015, the System's deposits were not exposed to custodial credit risk due to being entirely covered by depository insurance (a combination of federal depository insurance with the excess covered by the State's Bank Collateral Pool).

## Water Systems

As of June 30, 2015, the System's bank balances were not exposed to custodial credit risk due to being entirely covered by depository insurance (a combination of federal depository insurance with the excess covered by the State's Bank Collateral Pool).

#### Electric System

As of June 30, 2015, the System's bank deposits were fully collateralized or insured.

## School System

Cash in bank balance represents funds on deposit in one local depository. These funds were entirely insured by FDIC or through the Bank Collateral Pool with the State of Tennessee.

## **3.B. ACCOUNTS RECEIVABLE**

Accounts receivable of the business-type activities consists of utilities receivable. Accounts receivable of the governmental activities consists of amounts due from the various local sources. Receivables detail at June 30, 2015, is as follows:

	Governmental Activities		siness-type Activities	Total		
Accounts receivable Allowance for doubtful accounts	\$	23,164 (11,378)	\$ 3,666,299 (221,860)	\$	3,689,463 (233,238)	
Net accounts receivable	\$	11,786	\$ 3,444,439	\$	3,456,225	

## **3.C. CAPITAL ASSETS**

Capital asset activity for the year ended June 30, 2015, was as follows:

		Balance 7/1/14		dditions/ ljustments		tirements/ justments		Balance 6/30/15
Governmental Activities:								
Capital assets not being depreciated

Public works	187,680
Health, recreation and welfare	<u>701.415</u>
Total depreciation expense	<u>\$1,315,764</u>

## **3.D. ACCOUNTS PAYABLE**

Payables in the general fund and nonmajor governmental funds are composed of payables to vendors.

## **3.E. OPERATING LEASES**

Various schools and the Board of Education have operating leases for the use of copiers. This cost is recorded as instructional and administrative expenditures. The terms of these lease arrangements vary.

## **3.F. PREPAID MEALS**

The amount for prepaid meals on the School Food Authority Fund reflects money that students and staff have credited toward meals in the following school year. The overpayment amount may be refunded to persons or applied to that person's meal account in the following year. In the event that a student graduates, the overpayment may be refunded or applied to another family member's meal account.

## **3.G. LONG-TERM LIABILITIES**

The reporting entity's long-term liabilities is segregated between the amounts to be repaid from governmental activities and amounts to be repaid from business-type activities.

## **Governmental Activities**

As of June 30, 2015, the governmental long-term liabilities of the financial reporting entity consisted of the following:

## **Governmental Activities**

General Obligation Bonds 2010 General Obligation Refunding Bond dated March 1, 2011, through September 1, 2019, bearing interest rates of 2% to 3%.	\$	2,010,000
2003 General Obligation Refunding Bonds dated March 12, 2003, due December 1, 2003, through December 1, 2016, bearing interest rates of 1.75% to 5.40%.		345,000
2012 General Obligation School Bonds dated May 1, 2012, due June 1, 2013, through June 1, 2032, bearing interest rates of 1.00 to 3.125%.		6,030,000
2009 Refunding and Improvement Bonds dated April 16, 2009, due October 1, 2009 through April 1, 2034, bearing interest rates of 2.00% to 5.00%,		1,215,000
2004 Qualified Zone Academy Bonds, due November 24, 2005, through November 24, 2020, bearing 0% interest.		453,173
2012 General Obligation Bonds, dated October 18, 2012, due April 1, 2013 through April 1, 2028, interest 1% to 2%.		282,044
<b>Capital Outlay Notes</b> 2005 capital outlay note. Interest 4.05% with final payment due September 1, 2017.		145,000
2012 Energy Efficient School Initiative loan, due in monthly payments of \$2,936 thru 2022, bearing 0% interest.		237,828
		10,718,045
Other Liabilities Compensated absences		1,198,861
Unamortized debt premiums		7,258
Landfill closure costs	<u></u>	218,577
Total Government Activity	\$	12,142,741

## **Business-type Activities**

<b>Revenue Bonds</b> 2009 Gas Refunding Bonds, dated April 16, 2009, due October 1, 2009 through April 1, 2034, interest 2.00% to 5.00%	\$ 1,540,000
2011 Gas Refunding Bonds, dated March 1, 2011, through March 1, 2019, interest 2.00% to 3.00%.	1,280,000
2011 Water Refunding Bonds, dated March 1, 2011, through March 1, 2019, interest 2.00% to 3.00%.	1,200,000
2009 Water and Sewer Refunding Bonds, dated April 16, 2009, due October 1, 2009 through April 1, 2034, interest 2.00% to 5.00%	5,545,000
2007 Electric Department Revenue Bonds, dated April 24, 2007, due November 1, 2007 through May 1, 2032, bearing an interest rate of 4.09%.	7,290,000
2011 Electric Plant Revenue Bonds, variable interest of 2.0% to 4.0% due serially through 2037	7,555,000
<b>General Obligation Bonds</b> 2012 General Obligation Bonds - Gas portion, dated October 18, 2012, due April 1, 2013 through April 1, 2028, interest 1% to 2%.	19,335
2012 General Obligation Bonds, dated October 18, 2012, due April 1, 2013 through April 1, 2028, interest 1% to 2%.	3,738,620
<b>Other liabilities</b> Compensated absences Unamortized debt premiums	 2,304,400 52,129
Total Business-type Activites	\$ 30,524,484

## **Changes in Long-Term Liabilities**

The following is a summary of changes in long-term debt for the year ended June 30, 2015:

	Balance 7/1/2014	lssues or Additions	Retirements	Balance 6/30/2015	Due within one year	
Governmental Type Activities						
General Obligation Bonds	\$ 11,301,454	\$-	\$ 966,237	\$ 10,335,217	\$ 987,633	
Notes Payable	463,060	-	80,232	382,828	80,232	
Landfill Closure Costs	220,937	-	2,360	218,577	-

## Other Long-term liabilities

Governmental-type compensated absences have been paid in prior years by the General Fund. Landfill post closure costs have been paid in prior years by the Solid Waste Fund.

## Annual Requirements to Retire Debt Outstanding

The annual aggregate maturities for each note payable for the years subsequent to June 30, 2015 are as follows:

			General Oblig	ation E	<u>londs</u>

Transactions arising from Water, Sewer, and Garbage Fund billing of utility services are recorded in these accounts between the Gas, Water System, and Solid Waste Funds. The amounts due to the General Fund from the Water and Gas Funds are for expenses paid by the General Fund and not yet reimbursed by the other funds.

## **3.I. ON-BEHALF PAYMENTS**

The State of Tennessee pays health insurance premiums for retired teachers on-behalf of the Lexington City School System. These payments are made by the state to the Local Government Group Insurance Plan and the Medicare Supplement Plan. Both of these plans are administered by the State of Tennessee and reported in the State's Comprehensive Annual Financial Report. Payments by the state to the Local Government Group Insurance Plan and the Medicare Supplement Plan for the year ended June 30, 2015 were \$46,040 and \$12,388, respectively. The System has recognized these on-behalf payments as revenues and expenditures in the General Purpose School Fund.

## NOTE 4. OTHER NOTES

## 4.A. EMPLOYEE PENSION AND OTHER BENEFIT PLANS

## Pension Plan Obligations:

Certain employees of the City, except school employees, are members of the City's contributory, defined benefit pension plan, a single-employer plan. School department information is included in another note. The plan was established by City ordinance and may be amended by such.

## **Plan Description**

The City of Lexington pension committee administers the Retirement Plan for Employees of The City of Lexington (Plan) – a single employer defined benefit pension plan that provides pensions for employees.

Participant Data	
Inactive Plan Participants as of January 1, 2014:	
Retirees and beneficiaries currently receiving benefits	4
Terminated employees entitled to deferred benefits	24
Disabled employees entitled to deferred benefits	<u>3</u> 31
Total	31
Active Plan Participants as of January 1, 2014:	
Vested	67
Partially-vested	29
Non-vested	<u>13</u>
Total	109

## **Summary of Plan Provisions**

Effective Date: May 1, 1973

Fiscal Year Beginning: 01/01/15

<u>Eligibility Requirements:</u> Minimum age of 20 and 12 minimum months of service. Entry date is the first day of the month coinciding with or next following the date the requirements are met.

<u>Normal Retirement Date:</u> First day of the month coinciding with or next following attainment of age 60. As of January 1, 1999, all new participants must attain age 60 with 10 years of service.

## Normal Retirement Benefit Formula:

Effective July 1, 2000 monthly annuity is equal to the sum of (1) and (2) below:

- (1) 2.25% of the member's Average Monthly Earnings multiplied by years of Credited Service up to a maximum of 30 years.
- (2) 1.85% of member's Average Monthly Earnings multiplied by years of Credit Service in excess of 30 years.

For contributing members as of April 1, 1986, minimum monthly annuity is equal to 3.33% of member's Average Monthly Earnings multiplied by years of credited service subject to a maximum of 15 years. Members of the prior plan will receive a benefit no less than 40% of the average monthly earnings during the period of 5 consecutive years in which his earnings were highest or 40% of his salary at age 64, whichever is greater.

<u>Average Monthly Earnings:</u> The greater of (i) average of monthly compensation for the 5 consecutive years of highest compensation and (ii) monthly compensation during the year immediately preceding the participant's 60<sup>th</sup> birthday.

<u>Credited Service:</u> Number of years and completed months of active participation in this plan and the prior plan.

Normal Form of Benefits: Single life annuity with 120 months certain.

<u>Maximum Annual Benefit:</u> \$ 210,000 as adjusted per IRC Sec. 415 for retirement age other than social security retirement age and annuity form.

<u>Employee Contributions</u>: Monthly contributions equal to 6% of member's monthly earnings. Effective, July 1, 1999, these contributions will be made with pre-tax dollars.

Credited Interest: 5% per annum compounded annually.

<u>Early Retirement Benefit:</u> Minimum Age: 50; Minimum Service: 10 years; Benefit Amount: based on service and earnings at termination, reduced actuarially.

Late Retirement Benefit: Normal retirement benefit increased 8% per annum for each year that retirement is deferred.

Pre-Retirement Death Benefit: Member contributions credited with interest to the date of death.

<u>Disability Benefit</u>: Normal retirement benefit at date of disability reduced by the ratio of years of service at disability to years of service projected to normal retirement date. The benefit will commence the first day of the sixth month following determination of disability under the Social Security Act.

<u>Vested Termination Benefit:</u> A member who terminates employment with less than 5 years of credited service may elect to receive, at any time prior to retirement, either: i) a return of member contributions with interest to the date of payment, or ii) income payments at retirement provided by his own contributions with interest. A member who terminates employment with 5 or more years of service will be entitled to a percentage of the benefit earned based on years of credited service and average monthly earnings at separation from service. The percentage is determined as follows:

Years of Credited Service	<u>Percentage</u>
Less than 5	0%
5	25%
6	40%
7	55%
8	70%
9	85%
10 or more	100%

## Contributions

Required contributions are based on actuarial calculations performed by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employee contributions are based on employee's annual covered salary. For the year ended June 30, 2014, the employee contribution rate was 6%. The City's contributions for the year ended June 30, 2014 were \$509,921.

## **Net Pension Liability**

The System's net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total pension liability in the June 30, 2014 valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Salary increases Investment rate of return 4.00% per annum 7.50% per annum

## Change in City's Net Pension Liability

Changes in the City's net pension liability for the year ended June 30, 2014 were as follows:

	Increase (Decrease)					
	Total Pension	Plan Fiduciary Net	Net Pension Liability			
	Liability (a)	Position (b)	<u>(a) - (b)</u>			
Balances at 6/30/13	\$ 10,263,610	\$ 7,506,819	\$ 2,756,791			
Changes for the year:						
Service cost	406,855	-	406,855			
Interest	793,037	-	793,037			
Differences between expected and actual experience	-	-	-			
Contributions - employer	-	509,921	(509,921)

Benefit payments	(196,839)	(196,839)	-			
Administrative expense		(1,250)	1,250			
Net changes	1,003,053	1,851,965	(848,912)			
Balances at 6/30/14	\$ 11,266,663	\$ 9,358,784	\$ 1,907,879			

## Long-Term Expected Rate of Return on Pension Plan Investments

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rated of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

## **Discount Rate**

The discount rate used to measure the total pension liability was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that City contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

## Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability calculated using the discount rate of 7.5 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.5%) or 1 percentage-point higher (8.5%) that the current rate:

				Current			
	1%	6 Decrease	Dis	scount Rate	1%	Increase	
		6.50%	6.50% 7.50%		8.50%		
Plan's net pension liability	\$	3,596,715	\$	1,907,879	\$	501,652	

The discount rate is the single rate that reflects (1) the long-term expected rate of return on pension plan investments that are expected to be used to finance the payment of benefits, to the extent that the pension

plan's fiduciary net position is projected to be sufficient to make projected benefit payments and pension plan assets are expected to be invested using a strategy to achieve that return, and (2) a yield or index rate for 20year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher (or equivalent quality on another scale), to the extent that the conditions for use of the long-term expected rate of return are not met. The tax exempt, high-quality general obligation municipal bond rate used was 3.70%.

# Pension Expense (Income) and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the measurement period ended June 30, 2014, the City recognized pension expense of \$211,208. At June 30, 2014, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	 d Outflows esources	Deferred Inflows of Resources		
Differences between expected and actual experience	\$ -	\$	-	
Net difference between projected and actual				
earnings on pension plan investments	-		550,199	
Contributions subsequent to the measurement				
date of June 30, 2014	-		-	
Total	\$ -	\$	550,199	

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

## Year ended June 30:

2015	\$ (137,550)
2016	(137,550)
2017	(137,550)
2018	(137,550)
2019	-
Thereafter	-

## Payable to the Pension Plan

At June 30, 2015, the City reported \$ 0 payable for outstanding amount of contributions to the pension plan required at the year ended June 30, 2015.

The City began offering a 403(b) defined contribution plan to their eligible employees hired after April 1, 2012. Employees are required to make a mandatory contribution of 6% of their annual compensation and the City matches their contribution with an equal amount. The employer's contributions are not vested until after five annual periods in the plan. The City's current year contributions to the plan were \$31,057.

## Electric System

## **Plan Description**

The Board provides all retirement benefits for employees through a single-employer, defined benefit plan. Under the plan, all full-time employees are eligible. The System's payroll for employees covered by the plan for the year ended June 30, 2014, was \$2,412,526.

The Lexington Electric System Retirement Plan issues a publicly available report that can be obtained by contacting the City of Lexington, Tennessee.

All employees of the System become participants on the first day of the calendar month on or immediately after completion of one year of service and attainment of age 20. The Plan provides normal retirement benefits at age 60. Effective March 1, 2000, the monthly annuity is equal to the sum of 2.25% of the members Average Monthly Earnings multiplied by years of Credited Service for the member's first 30 years of Credited Service and 1.85% of the member's Average Monthly Earnings, multiplied by years of Credited Service in excess of 30 years. For contributing members as of April 1, 1986, minimum monthly annuity will equal to 3.33% of member's Average Monthly Earnings multiplied by years of Credited Service subject to a maximum of 15 years. A member of the plan will receive a benefit of no less than 40% of the average of monthly earnings during the period of 5 consecutive years in which his earnings were highest or 40% of his salary at age 64, whichever is greater. Average Monthly Earnings means the greater of (1) the average of monthly compensation for the 5 consecutive years of highest compensation, and (2) monthly compensation during the participant's 60<sup>th</sup> birthday. Maximum annual compensation is \$195,000. A reduced retirement benefit is available to employees upon early retirement.

At June 30, 2014, the following employees were covered by the Plan:

Active employees under assumed retirement age	40
Other active and inactive employees	1
Terminated deferred vested, deceased and disabled employees	5
Retired employees, beneficiaries and contingent annuitants	6
	52

#### Contributions

Required contributions are based on actuarial calculations performed by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employee contributions are based on employee's annual covered salary. For the year ended June 30, 2014, the employee contribution rate was 6%. The System's contributions for the year ended June 30, 2014 were \$663,487.

#### Net Pension Liability

The System's net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total pension liability in the June 30, 2014 valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Salary increases Investment rate of return 4.00% per annum 7.50% per annum

## Change in System's Net Pension Liability

Changes in the System's net pension liability for the year ended June 30, 2014 were as follows:

Increase (Decrease)					
Total Pension	Plan Fiduciary Net	Net Pension Liability			
\$ 9,817,757	\$ 6,402,609	(a) - (b) \$ 3,415,148			
207,035	-	207,035			
700,229 -	-	700,229 -			
-	663,487 148 508	(663,487) (148,508)			
-	1,088,227	(1,088,227)			
(1,402,188)	(1,402,188) (503)_	- 503			
(494,924) \$ 9,322,833	497,531 \$ 6,900,140	(992,455) \$ 2,422,693			
	Total Pension Liability (a) \$ 9,817,757 207,035 700,229 - - - (1,402,188) - - (494,924)	Total         Plan           Pension         Fiduciary Net           Liability (a)         Position (b)           \$ 9,817,757         \$ 6,402,609           207,035         -           700,229         -           -         663,487           -         148,508           -         1,088,227           (1,402,188)         (1,402,188)           -         (503)           (494,924)         497,531			

## Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability calculated using the discount rate of 7.0 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.0%) or 1 percentage-point higher (8.0%) that the current rate:

	Current						
	1% Decrease		Di	<b>Discount Rate</b>		1% Increase	
		6.50%		7.50%		8.50%	
Plan's net pension liability	\$	3,942,667	\$	2,422,693	\$	1,145,613	

# Pension Expense (Income) and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the measurement period ended June 30, 2014, the System recognized pension expense of \$174,860. At June 30, 2014, the System reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	 red Outflows Resources	Deferred Inflows of Resources		
Differences between expected and actual experience	\$ -	\$	-	
Net difference between projected and actual				
earnings on pension plan investments	-		503,828	
Contributions subsequent to the measurement				
date of June 30, 2014	688,791		-	
Total	\$ 688,791	\$	503,828	

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

## Year ended June 30:

2015	\$ (125,957)
2016	(125,957)
2017	(125,957)
2018	(125,957)
2019	-
Thereafter	-

## Electric System

The System began offering a 403(b) defined contribution plan to their eligible employees hired after April 1, 2012. The System matches their employee's contributions, which can be up to 6% of the employee's annual compensation. The employer's contributions are not vested until after five annual periods in the plan. The System's current year contributions to the plan were \$25,304.

## **School Department**

## General Information about the Pension Plan

*Plan description.* Teachers with membership in the Tennessee Consolidated Retirement System (TCRS) before July 1, 2014 of Lexington City Schools are provided with pensions through the Teacher Legacy Pension Plan, a cost sharing multiple-employer pension plan administered by the TCRS. The Teacher Legacy Pension Plan closed now to new membership on June 30, 2014, but will continue providing benefits to existing members and retirees. Beginning July 1, 2014, the Teacher Retirement Plan became effective for teachers employed by Local Education Agencies (LEAs) after June 30, 2014. The Teacher Retirement Plan is a separate cost-sharing, multiple employer defined benefit plan. The TCRS was created by state statute under Tennessee Code Annotated Title 8, Chapters 34-37. The TCRS Board of Trustees is responsible for the proper operation and administration of all employer pension plans in the TCRS. The Tennessee Treasury Department, an agency in the legislative branch of state government, administers the plans of the TCRS. The TCRS issues a publically available financial report that can be obtained at <u>www.treasury.tn.gov/tcrs</u>.

## 1. Teacher Legacy Pension Plan

Benefits provided. Tennessee Code Annotated Title 8, Chapters 34-37 establishes the benefit terms and can be amended only by the Tennessee General Assembly. Members of the Teacher Legacy Pension Plan are eligible to retire with an unreduced benefit at age 60 with 5 years of service credit or after 30 years of service credit regardless of age. Benefits are determined by a formula using the member's highest five consecutive year average compensation and the member's years of service credit. A reduced early retirement benefit is available at age 55 and vested. Members are vested with five years of service credit. Service related disability benefits are provided regardless of length of service. Five years of service is required for nonservice related disability eligibility. The service related and non-service related disability benefits are determined in the same manner as a service retirement benefit but are reduced 10 percent and include projected service credits. A variety of death benefits are available under various eligibility criteria. Member and beneficiary annuitants are entitled to automatic cost of living adjustments (COLAs) after retirement. A COLA is granted each July for annuitants retired prior to the 2<sup>nd</sup> of July of the previous year. The COLA is based on the change in the consumer price index (CPI) during the prior calendar year, capped at 3 percent, and applied to the current benefit. No COLA is granted if the change in the CPI is less than one-half percent. A one percent COLA is granted if the CPI change is between one-half percent and one percent. A member who leaves employment may withdraw their employee contributions, plus any accumulated interest.

*Contributions.* Contributions for teachers are established in the statutes governing the TCRS and may only be changed by the Tennessee General Assembly. Teachers contribute 5 percent of salary. The Local Education Agencies (LEAs) make employer contributions at the rate set by the Board of Trustees as determined by an actuarial valuation. By law, employer contributions for the Teacher Legacy Pension Plan are required to be paid. The TCRS may intercept the state shared taxes of the sponsoring governmental entity of the LEA if the required employer contributions are not remitted. Employer contributions by Lexington City Schools for the year ended June 30, 2015 to the Teacher Legacy Pension Plan were \$356,483 which is 9.04 percent of covered payroll. The employer rate, when combined with member contributions, is expected to finance the costs of benefits earned by members during the year, the cost of administration, as well as an amortized portion of any unfunded liability.

# Pension Liabilities (Assets), Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

*Pension asset.* At June 30, 2014, the Lexington City Schools reported an asset of \$17,035 for its proportionate share of net pension asset. The net pension asset was measured as of June 30, 2014, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of that date. Lexington City School's proportion of the net pension liability was based on Lexington City School's employer contributions to the pension plan during the year ended June 30, 2014 relative to the contributions of all LEAs for the year ended June 30, 2014. At the June 30, 2014 measurement date, Lexington City Schools' proportion was 0.104835 percent. The proportion measured as of June 30, 2013 was 0.103891 percent.

*Pension income.* For the year ended June 30, 2015, Lexington City Schools recognized a pension income of \$12,391.

Deferred outflows of resources and deferred inflows of resources. For the year ended June 30, 2015, Lexington City Schools reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Differences between expected and actual experience	\$	41,357	\$	_
Net difference between projected and actual earnings on pension plan investments		-		1,403,587
Changes in proportion of Net Pension Liability (Asset)		13,314		-
LEA's contribution subsequent to the measurement date of June 30, 2014		356,483		
Total	\$	411,154	\$	1,403,587

Lexington City Schools employer contribution of \$356,483, reported as pension related deferred outflows or resources, subsequent to the measurement date, will be recognized as an increase in net pension asset in the year ended June 30, 2016. Other amounts reported as deferred outflows or resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

# Year Ended June 30:2016\$ (341,785)2017(341,785)2018(341,785)2019(341,785)20209,112Thereafter9,112

In the table above, positive amounts will increase pension expense, while negative amounts will decrease pension expense.

Actuarial assumptions. The total pension liability in the June 30, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.0 percent
Salary increases	Graded salary ranges from 8.97 to 3.71 percent based on age, including inflation, averaging 4.25 percent
Investment rate of return	7.5 percent, net of pension plan investment expenses, Including inflation
Cost-of Living Adjustment	2.5 percent

Mortality rates are customized based on the June 30, 2012 actuarial experience study and included some adjustment for expected future improvement in life expectancy.

The actuarial assumptions used in the June 30, 2014 actuarial valuation were based on the results of an actuarial experience study performed for the period July 1, 2008 through June 30, 2012. The demographic assumptions were adjusted to more closely reflect actual and expected future experience.

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees in conjunction with the June 30, 2012 actuarial experience study by considering the following three techniques: (1) the 25-year historical return of the TCRS at June 30, 2012. (2) the historical market returns of asset classes from 1926 to 2012 using the TCRS investment policy asset allocation, and (3) capital market projections that were utilized as a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. Four sources of capital market projections were blended and utilized in the third technique. The blended capital market projection established the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding inflation of 3 percent. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Long-term Expected Real Rate of Return	Target Allocation
U.S. Equity	6.46%	33%
Developed marked international equity	6.26%	17%
Emerging marked international equity	6.40%	5%
Private equity and strategic lending	4.61%	8%
U.S. fixed income	0.98%	29%
Real estate	4.73%	7%
Short-term securities	0.00%	<u>1%</u>

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees as 7.5 percent based on a blending of the three factors described above.

*Discount rate.* The discount rate used to measure the total pension liability was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current rate and that contributions from the all LEAs will be made at the actuarially determined contribution rate pursuant to an actuarial valuation in accordance with the funding policy of the TCRS Board of Trustees and as required to be paid by state statue. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the proportionate share of net pension liability (asset) to changes in the discount rate. The following presents Lexington City Schools' proportionate share of the net pension liability (asset) calculated using the discount rate of 7.5 percent, as well as what Lexington City Schools' proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.5 percent) or 1-percent-point higher (8.5 percent) than the current rate:

	1% Decrease 6.50%		Current Discount Rate 7.50%		1% Increase 8.50%	
Lexington City Schools' proportionate share of the net pension liability (asset)	\$ 2,873,169		\$	(17,035)	\$	(2,409,811)

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in a separately issued TCRS financial report.

## Payable to the Pension Plan

At June 30, 2015, Lexington City Schools reported a payable of \$-0- for the outstanding amount of contributions to the pension plan required at the year ended June 30, 2015.

## 2. Teacher Retirement Plan

Benefits provided. Tennessee Code Annotated Title 8, Chapters 34-37 establishes the benefit terms and can be amended only by the Tennessee General Assembly. Members of the Teacher Retirement Plan are eligible to retire at age 65 with 5 years of service credit or pursuant to the rule 90 in which the member's age and service credit total 90. Members are entitled to receive unreduced service retirement benefits, which are determined by a formula using the member's highest five consecutive year average compensation and the member's years of service credit. Five years of service is required for non-service related disability eligibility. The service related and non-service related disability benefits are determined in the same manner as a service retirement benefit but are reduced 10 percent and include projected service credits. A variety of death benefits are available under various eligibility criteria. Member and beneficiary annuitants are entitled to automatic cost of living adjustments (COLAs) after retirement. A COLA is granted each July for annuitants retired prior to the 2<sup>nd</sup> of July of the previous year. The COLA is based on the change in the consumer price index (CPI) during the prior calendar year, capped at 3 percent, and applied to the current benefit. No COLA is granted if the change in the CPI is less than one-half percent. A one percent COLA is granted if the CPI change is between one-half percent and one percent. A member who leaves employment may withdraw their employee contributions, plus any accumulated interest. Under the Teacher Retirement Plan, benefit terms and conditions, including COLA, can be adjusted on a prospective basis. Moreover, there are defined cost controls and unfunded liability controls that provide for the adjustment of benefit terms and conditions on an automatic basis.

*Contributions.* Contributions for teachers are established in the statutes governing the TCRS and may only be changed by the Tennessee General Assembly. Teachers contribute 5 percent of salary. The Local Education Agencies (LEAs) make employer contributions at the rate set by the Board of Trustees as determined by an actuarial valuation. Per the statutory provisions governing the TCRS, the employer contribution rate cannot be less than 4 percent, except for in years when the maximum funded level, approved by the TCRS Board of Trustees, is reached. By law, employer contributions for the Teacher Retirement Plan are required to be paid. The TCRS may intercept the state shared taxes of the sponsoring governmental entity of the LEA if the required employer contributions are not remitted. Employer contributions for the year ended June 30, 2015 to the Teacher Retirement Plan were \$10,118, which is 4 percent of covered payroll. The employer rate, when combined with member contributions, is expected to finance the costs of benefits earned by members during the year, the cost of administration, as well as an amortized portion of any unfunded liability.

# Pension Liabilities (Assets), Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

*Pension liabilities.* Since the measurement date is June 30, 2014, which is prior to the July 1, 2014 inception of the Teacher Retirement Plan, there is not a pension liability to report at June 30, 2015.

*Pension expense.* Since the measurement date is June 30, 2014, Lexington City Schools did not recognized a pension expense at June 30, 2015.

Deferred outflows of resources and deferred inflows of resources. For the year ended June 30, 2015, Lexington City Schools reported deferred outflows of resources related to pensions from the following sources:

	 d Outflows esources	Deferred Inflows of Resources	
Lexington City Schools' contributions			
subsequent to the measurement date of June 30, 2014	\$ 10,118	(not applicable)	

Lexington City Schools; employer contributions of \$10,118 reported as pension related deferred outflows of resources, subsequent to the measurement date, will be recognized as a reduction in net pension liability in the year ended June 30, 2016.

#### Payable to the Pension Plan

At June 30, 2015, Lexington City Schools reported a payable of \$-0- for the outstanding amount of contributions to the pension plan required at the year ended June 30, 2015.

#### **Non-Professional Staff:**

The non-professional staff members of the System may elect a retirement plan option. The Lexington City School Board authorized funds for a 403-b tax sheltered individual annuity plan for each of the 25 qualifying individuals. The system would match a minimum of \$300 for the individual staff's \$300, for a total of \$600 required as a minimum contribution by Horace Mann authorized carriers to provide the plan. The system would match 3.5% of staff total yearly salary, with minimum match of \$300. Total contributions by the system amounted to \$37,903 for the 14-15 school year.

#### 4.B. POST EMPLOYEMENT HEALTHCARE PLAN – Electric System

**Plan Description** – Lexington Electric System sponsors a single-employer post-retirement benefit plan. The plan provides medical, dental, cancer and death benefits to eligible retirees and their spouses.

**Funding Policy** – The System intends to continue its policy of funding OPEB liabilities on a pay-go basis and to not pre-fund any unfunded annual required contributions as determined under GASB 45.

Annual OPEB Cost and Net OPEB Obligation – The System's annual other post-retirement benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. The following table shows the components of the System's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the System's net OPEB obligation.

Components of Net OPEB Obligation	
Annual required contribution	\$ 311,698
Interest on Net OPEB obligation	30,517
Adjustment to annual required contribution	 (38,798)
Annual OPEB cost (expense)	303,417
Contributions and subsidy	(115,550)
Increase in net obligation	187,867
Net OPEB obligation (BOY)	 762,889
Net OPEB (asset) obligation (EOY)	\$ 950,756

The System's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the 2015 are as follows:

Fiscal Year Ended	Annual OPEB Cost				Net OPEB Obligation	
6/30/2014	\$	303,416	38.10%	\$	950,756	
6/30/2014		267,299	20.10%		762,889	
6/30/2013		255,272	21.51%		592,724	

**Funded Status and Funding Progress** – As of July 1, 2014, the most recent actuarial valuation date, the plan was 0% funded. The actuarial accrued liability for benefits was \$3,079,828 and the actuarial value of assets was \$0 resulting in an unfunded actuarial accrued liability (UAAT) of \$3,079,828. The covered payroll (annual payroll of active employees covered by the plan) was \$2,645,385 and the ratio of the UAAL to the covered payroll was 153.0%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of the plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions – Projections of benefits for financial reporting purposes are based on substantive plan (the plan as understood by the employer and the plan members) and includes the type of benefits provided at the time of each valuation and the historical pattern of sharing the benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2014 actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions included a 4.0% investment rate of return (net of administrative expenses), which is a blended rate of the expected long-term investment returns on plan assets and on the employer's own investments calculated based on the funded level of the plan assets at the valuation date, and an annual healthcare cost trend rate of 8.0% initially, reduced by decrements to an ultimate rate of 5% after ten years. The actuarial value of assets was determined using a standard balanced portfolio expectation for retirement plan asset returns. The UAAL is being amortized as a level percentage of payroll on an open basis. The remaining amortization period at July 1, 2014 was 25 years.

## 4.C. RISK MANAGEMENT

Beginning April 2015, medical insurance for employees is provided by self-funding claims as they arise. Under this arrangement, the System provides coverage for the deductible up to a maximum of \$5,000 per year for each employee's medical claims. Claims expenditures and liabilities are reported under the selfinsurance plan when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Changes in the claims liability for all employees are as follows:

Balance at 7/1/2014	 icurred Claims	 Claims Payments		llance at 30/2015
\$ -	\$ 81,145	\$ 62,566	\$	18,579

## 4.D. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City participates in the Tennessee Municipal League Risk Management Pool, a public entity risk pool, for errors and omissions, automobile liability and physical damage, workers compensation, and employees' liability. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the three past fiscal years. The Tennessee Municipal League Risk Management Pool has been self-sustaining through member premiums. Members consist of local jurisdiction municipalities and utility districts in the state. Members are responsible for a prorata portion of claims which exceed the Pool's reserves. No additional assessments have ever been made by the Pool to its members as a result of losses experienced.

#### School System

The System participates in the Tennessee Boards Risk Management Trust (TSB-RMT), which is a public entity risk pool established by the Tennessee Boards Association, an association of member school districts. The System pays an annual premium to the TSB-RMT for its general liability, property, casualty and worker's compensation insurance coverage. The creation of the TSB-RMT provides for it to be self-sustaining through member premiums. The TSB-RMT reinsures through commercial insurance companies for claims exceeding \$100,000 for each insured event. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the three past fiscal years.

#### Electric System

The System is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the year ended June 30, 2015 the System purchased commercial insurance for all of the above risks. Settled claims have not exceeded this commercial coverage in any of the past three years and there has been no significant reduction in the amount of coverage provided.

## 4.E. LANDFILL POSTCLOSURE COSTS

In prior years the City has jointly operated a landfill with Henderson County. This landfill is now closed. State and federal laws and regulations required the City to place a final cover on its landfill site when it stopped accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. The City will report a portion of postclosure care costs as an operating expense in each fiscal year. The City has recognized postclosure costs of \$218,577 as a long-term liability in the statement of net position. These amounts are based on what it would currently cost to perform all postclosure care. Actual cost may be higher due to inflation or deflation, technology, or applicable laws or regulations.

## 4.F. COMMITMENTS AND CONTINGENCIES

The City is a defendant in various lawsuits brought against it. The City cannot predict the outcome of these cases and it is possible losses could be incurred. The amount of such possible losses cannot be determined.

## Electric System

The electric system has a power contract with the Tennessee Valley Authority (TVA) whereby the electric system purchases all its electric power from TVA and is subject to certain restrictions as provided for in the power contract. Such restrictions include, but are not limited to, prohibitions against furnishings, advancing, lending, pledging or otherwise diverting system funds, revenues or property to other operations of the county and the purchase or payment of, or providing security for indebtedness on other obligations applicable to such other operations.

## 4.G. IMPACT OF RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In June 2012, the GASB issued Statement 67, *Financial Reporting for Pension Plans – an amendment of GASB Statement 25*, and Statement 68, *Accounting and Financial Reporting for* Pensions – *an amendment of GASB Statement No.* 27. Statement 67, effective for fiscal years beginning after June 15, 2013, revises existing standards of financial reporting by state and local government pension plans and will be adopted by the pension plan itself. Statement 68 will affect the governments that participate as employers in these plans and is effective for fiscal years beginning after June 15, 2014. For governments to adopt Statement 68, the underlying pension plans must first adopt Statement 67. These statements establish a definition of a pension plan that reflects the primary activities associated with the pension arrangement – determining pensions, accumulated and managing assets dedicated for pensions, and paying benefits to plan members as they come due. Statement 68 details the recognition and disclosure requirements for employers with liabilities (payables) to a defined benefit pension plan and for employers whose employees are provided with defined contribution pensions. The objective of Statement 68 is to improve accounting and financial reporting by state and local governments for pensions. These pension standards include significant changes to how governmental employers will report liabilities related to pension obligations.

In November 2013, the GASB issued Statement 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No 68.* The objective of this Statement is to address an issue regarding application of the transition provisions of Statement No. 68, *Accounting and Financial Reporting for Pensions.* The issue relates to amounts associated with contributions, if any, made by a state or local government employer or nonemployer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability. The provisions of this Statement are required to be applied simultaneously with the provisions of Statement 68.

## 4.H. RESTATEMENTS

In prior years, the government was not required to recognize a liability for its defined benefit pension plans. However, with the implementation of GASB Statement No. 68, government employers are required to recognize a net pension liability in their Statement of Net Position. Therefore, a restatement decreasing the beginning net position in the Statement of Activities has been recognized as follows:

Governmental-type activities	\$1,508,516
Business-type activities	
Water Fund	\$ 775,761
Gas Fund	472,514
Electric Department	2,222,406
Total	\$3,470,681

## 4.I. CONSTRUCTION AND OTHER SIGNIFICANT COMMITMENTS

## Lexington Gas System

The System has a bypass project with estimated costs of \$134,903. As of June 30, 2015, there is approximately \$86,146 remaining to complete this project. The System has \$31,392 that is to be reimbursed by the Department of Transportation to help with these remaining costs.

## Lexington Water System

The System has several construction projects in process at June 30, 2015. Commitments for these projects are described below.

The utility relocation projects involving the Bypass Highway are all on hold by the Tennessee Department of Transportation (TDoT). The sewer bypass project has estimated costs of \$157,205 with an estimated \$136,450 remaining to complete this project. The System has \$39,338 that is to be reimbursed by TDoT to help with these remaining costs. The water bypass project has estimated costs of \$165,550 with an estimated \$108,577 remaining to complete this project. The System has \$40,468 that is to be reimbursed by TDot to help with these remaining costs.

The System has a sewer disaster recovery project with costs of \$967,940. As of June 30, 2015 there is \$62,865 remaining to complete this project which is to be fully funded with grant funds.

The System has a CDBG project which has an estimated cost of \$1,356,384 of which \$500,000 is to be funded by a CDBG grant. As of June 30, 2015, the System had expended \$223,017 of which \$113,417 was funded by the CDBG grant.

## City of Lexington

The General Fund has an upcoming sidewalk/multimodal project with costs of \$664,775. The City has been approved for a \$631,536 grant to help fund this project.

The City is a defendant in a lawsuit brought against it. The City cannot predict the outcome of this case and it is possible a loss could be incurred. The amount of such a possible loss cannot be determined.

## 4.J. REVISION TO ORIGINALLY ISSUED FINANCIAL STATEMENTS

The City has made revisions to the June 30, 2015 financial statements to properly report pension deferred outflows of resources and pension income.

### CITY OF LEXINGTON, TENNESSEE SCHEDULES OF CHANGES IN NET PENSION LIABILITY AND RELATED RATIOS JUNE 30, 2015

## CITY OF LEXINGTON, TENNESSEE SCHEDULES OF PLAN CONTRIBUTIONS JUNE 30, 2015

	City 2014	LES 2014
Actuarially determined contribution	\$ 428,197	\$ 663,487
Contributions in relation to the actuarially determined contribution	509,921	663,487
Contribution deficiency (excess)	\$ (81,724)	<u> </u>
Covered-employee payroll	\$ 4,075,748	\$2,412,526
Contributions as a percentage to covered payroll	12.51%	27.50%

This is a 10-year schedule; however, the information in this schedule is not required to be presented retroactively. Years will be added to this schedule in future fiscal years until 10 years of information is available.

# CITY OF LEXINGTON, TENNESSEE NOTES TO REQUIRED SUPPLEMENTAL INFORMATION JUNE 30, 2015

## Notes to Schedule

*Valuation date:* Actuarially determined contribution rates for were calculated based on the July 1, 2013 actuarial valuation.

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Projected Unit Credit
Amortization method	Level amortizaton, open
Remaining amortization period	20
Asset valuation	Market value of plan assets adjusted to phase in asset gains and losses after January 1, 2002 over a 5-year period at a rate of 20% per year. Assets are further limited to a 20% cooridor around market value
Inflation	3.0 percent
Salary increases	4.00%
Investment Rate of Return	7.50%
Retirement age	Age 62 or current age if later
Mortality	Prescribed IRS Static Mortality Table for the year of valuation

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Mayor and City Aldermen Lexington, Tennessee

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Lexington, Tennessee (the City), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the City of Lexington, Tennessee's basic financial statements and have issued our report thereon dated May 23, 2016, except for Note 4.J. as to which the date is August 9, 2016.

# **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described below, we identified certain deficiencies in internal control that we consider to be material weaknesses.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying schedule of findings and questioned costs as Internal School Funds' finding SAF 2015 –01 to be a material weakness.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## City of Lexington, Tennessee's Response to Findings

City of Lexington, Tennessee's response to the findings identified in our audit is described above. City of Lexington, Tennessee's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

To the Mayor and City Aldermen Lexington, Tennessee

## Report on Compliance for Each Major Federal Program

We have audited the City of Lexington, Tennessee's (the City) compliance with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement that could have a direct and material effect on each of the City's major federal programs for the year ended June 30, 2015. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

## Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

## Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations.* Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

## Opinion on Each Major Federal Program

In our opinion, the City, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2015.

## **Report on Internal Control over Compliance**

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion onthe effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

Member: American Institute of Certified Public Accountants • Tennessee Society of Certified Public Accountants

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

SAF 2015 – 001 INADEQUATE SEGREGATION OF DUTIES (original finding SAF 2007-01)

**Finding:** The duties of receiving cash, reconciling bank statements, preparing checks, and posting all transactions are handled by each individual school's bookkeeper.

Section 4, Title 2, Page 4-6 of the *Tennessee Internal School Uniform Accounting Policy Manual (TISUAPM)* details the minimum recommended internal controls. It explains that a good internal control structure cannot exist when the same person who receives cash also prepares the deposit slips, makes deposits, and reconciles the bank statement. Someone other than the person recording the cash receipts and preparing the deposit slips should make the deposit and reconcile the bank statement.

**Schools Still Deficient From the Prior Period Audit Finding:** Caywood Elementary and Lexington Middle School.

**Recommendation:** An effective internal control system provides for adequate segregation of duties. Therefore, we recommend that the principals review the current level of control and modify where deemed necessary. At a minimum, a second person should be selected to make deposits and reconcile the bank statements.

<u>SECTION III – Federal Award Findings and Questioned Costs</u> NONE

## CITY OF LEXINGTON, TENNESSEE CORRECTIVE ACTION PLAN JUNE 30, 2015

## **INTERNAL SCHOOL FUNDS**

## FINDING SAF 2015 - 001 INADEQUATE SEGREGATION OF DUTIES

#### Corrective action planned

School System has employed full-time bookkeeper at each school and provided training program through attendance at workshops, accounting system vendor and in-house support from central finance office. Principals will review procedures and develop plans to implement segregation of duties within the constraints of the limited office staff.

Anticipated completion date Immediately

<u>Responsible party</u> Each individual school's principal
